---

Gary, attached is the Draft ROD amended based on HQ's comments. Before submittal to HQ's for review and comment, please review the entire ROD to ensure that you agree with the text and that we have adequately incorporated HQ's comments.

Note that the figures/tables of the eco section of the ROD do not correspond to the ROD's Table of Contents. The figures/tables for the eco section have already been forwarded in a separate e-mail several weeks ago.

Attached are the additional figures/tables, for the "nature and extent" section that were added to the amended ROD. Everyone should already have the other table/figures from a separate e-mail.

I will begin to sequence the tables/figures and forward the numbering scheme later so that the PRP can begin to correctly label each table/figure.
